Day 2 & 3

Today we leave and drive over to **Storms River, on the Garden Route**. After booking into The Tsitsikamma Lodge you can explore the village. Lots to do so worth a couple of days here to join in the activities such as canopy tree tours (we really enjoyed this and you can get a video of it to keep) also there's white water tubing, again a great experience and we would also combine this with a cycle to the Storms River Mouth and the **"Big Tree"** in the indigenous Tsitsikamma Forest. (By car 583 km's / 362 miles cycling approx 30km / 18 miles)
